

HOST HEADQUARTERS CHECK IN

Each competitor must check in at the FRSE Headquarters before the beginning of his or her competition. Competitors will be required to show current agency identification cards for verification of eligibility (Badges are not acceptable ID's). The Host will check to see if all fees are paid and a Waiver of Liability has been signed and on file. There may be additional information or verification needed (i.e., date of birth). The Entry Information on the website and the Notification Letter both specify documents required for registration, if different from above.

The FRSE will issue the competitor a Participant ID. Each competitor must get their Participant ID from the host headquarters prior to their first competition. The Host will then inform the competitor to present the Participant ID at all sport venues before every competition, and at all activities where special admission to a FRSE event or activity may be needed. (I.e. Hospitality, social events)

- In situations where the physical location of the sport venue is so far removed from the Host Headquarters as to cause unnecessary inconvenience to competitors, the FRSE may have On-Site Check In. Information regarding On-Site Check In will be provided to competitors on the event sports page.

In sports with On-Site Check In, the Sport Coordinator will be responsible for ensuring that competitors are duly registered in that sport's event(s) and that all phases of the registration process have been completed (i.e., paying outstanding fees, signing a Waiver, etc.).

Any entrant, whose first sport has On-Site Check In and is also participating in another sport without On-Site Check In, must also register at the Host Headquarters' Registration to receive their Participant ID to compete in the other sport(s).
