

FORMING TEAMS

A. COMBINING TO FORM A TEAM:

- Forming a Doubles Team: Any two individuals from any two agencies may combine to form a doubles team.
- Forming a team with an eligible roster for 3v3 Basketball & 5v5 Football: The following rules apply:
 - 1) 3 agencies may combine to form a team as long as the total manpower of combining all the agencies does not exceed 1300 eligible personnel. The FRSE must be notified at time of entry that agencies are combining.
- Forming a team with an eligible roster of 5 or less (4-person golf, Bowling, Cycling and others not covered above): The following rules apply:

An unlimited number of agencies can combine to form a team.
- Forming a team with an eligible roster of 11 or more:

The following rules apply:

 - 1) An unlimited number of agencies can combine to form a team if the total manpower of combining all of the agencies does not exceed 1300 eligible personnel.
 - 2) An agency of 1300 or more may not combine with any other agencies. All military teams are divided by branch of service and cannot be combined. Example: 6 Navy personnel cannot combine with 10 Marines to form a Softball team – The entire team must be from the same branch of the service.

All agencies will be considered to be over 1300 eligible persons, unless proven otherwise by a certified roster signed by the Chief, Sheriff, and Head of Staff etc... Or his designee, these certified rosters need to be presented to the registration table when the captain registers. The team captain / coach must make the event coordinator aware that this is a combined team. Failure to disclose may result in disqualification. Agencies that have combined previous and have rosters on file – do not need to resubmit unless increases to eligible personnel has taken place.
 - 3) If agencies combine, only 2 teams from those agencies may enter the same event. Agencies that combine may form only two teams. As many agencies that are needed may combine to create an all-women's team (5 or more players).
 - 4) Any one military personnel may join any team – even those teams that have already combined. The military personnel's department's size does not come into account. This military personnel is above and beyond the rule that limits the combined roster to 1300
 - 5) Free agency rules are also taken into account for these entries.

Eligible Women may participate on any team, regardless of department size. The organization realizes the difficulty finding qualified women to play on teams. With that said, in the spirit of the games, we encourage eligible women to participate on their employed agencies teams.
