

## FSA APPROVED SPORTS

To organize and conduct a sport, it will include the following: FRS Rules, providing facilities, officials, personnel, equipment, medical support, security, organizational support, supervision, and any other logistics necessary to conduct the sport to the high standard of the FRS.

These events may have been hosted in the past and the rules are outlined in the “Rules of Sport” on the events webpage. These rules that have been approved by the FRSE must be adhered to unless changes are made to them prior to the start of registration. If a new event is introduced, rules for that introductory event must be submitted, approved and published prior to the start of registration.
