

## ENTRY / EVENT FEES

The Entry Fee and Event Fees will be established by the FRSE with input from the host. The Entry Fee is a fee charged for every event in FRSE. The Event or facility use fee is a separate fee charged for each event entered in addition to the Basic Entry Fee.

The Event Fee may be charged to the competitor to offset expenses, which exceed normal costs. These types of expenses may include required FRSE Officials, extraordinary venue charges or costs paid by the Host for a round of play for each competitor. Examples of sports typically having these expenses are: Golf, Trap, Skeet, and Sporting Clays. These event fees should be outlined prior to registration and be included at the time registration is completed by the participants.

A player participation fee may be implemented. This would be utilized to offset the ever-rising costs of running the games and insuring the games. This fee would be outlined and agreed on by the Board of Directors.
